

## USE OF TECHNOLOGY RESOURCES IN INSTRUCTION

NEPN/NSBA Code: IJNDB

Fayette Central School provides access to the Internet for all students, faculty, and staff. The use of the Internet is a privilege, not a right. Inappropriate use will result in the cancellation of those privileges and/or disciplinary action by school officials. A student's activities while using the Internet in this school must be in support of education and research, and consistent with the educational objective of the Fayette School Department. In addition, anyone accessing the Internet from a school site is responsible for all online activities which take place during their time online.

Fayette has made and will continue to make a significant investment of time and financial resources to bring technology into the classroom. Along with the increased educational resources that technology brings to teachers and students comes an increased need to use them wisely and responsibly.

Each student and his/her parent(s) or guardian(s) will be required to sign the Fayette Central School Acceptable Use Policy (IJNDB-R) signifying that they have discussed this policy, understand their responsibilities and agree to adhere to the requirements set forth.
