

February 4th - February 8th

Dear Maranacook Faculty and Families

It's been a great year so far with some incredible events happening in sports this week at Maranacook. Hopefully you get a chance to go out and support our students at the many events that are going on this weekend.

Maranacook's dual enrollment program was featured by the Maine Department of Education this week. If you get a chance please check out the link below.

Report cards were mailed home today so be on the lookout for those. Also mailed out today were applications to our Thomas College Summer Intensive. Please fill that out as soon as possible and remember we only have 50 slots for students. The college courses are free and run from June 17th to the 21st. The two classes being offered are Experiencing Diversity and Exploring Diversity in the Middle East. We will provide transportation to and from Thomas College each day and students will be in a cohort with their friends. Applications for are due by March 6th.

Health Center: Our school is participating in 5210 Let's Go! Ask your student if they know what 5210 stands for. The answer is: 5 fruits or veggies a day, 2 hours or less of recreational screen time, 1 hour or more of physical activity and 0 sugary drinks! This is a district wide initiative, so if you have children in our other schools, they are learning about this as well. Have a healthy weekend!

Technology/Business: Cal Dormans Personal Finance class is using the High School Financial Planning Program. Students are currently working on a money & checkbook management. While learning financial processes students are also gaining skills with online classwork and different types of software.

In the tech room, rm 140, there are computer stations for teachers and students to expand their knowledge of resources with a variety of online resources and programs. Current topics include Google Earth, Google Maps, Art & Literature, Art & Culture, Flight Simulation, Chief Architect, Flash Print and 3-D printing.

Guidance: The add/drop period for Semester 2 has officially ended. Students who are having difficulty in classes should talk to their advisor or to their counselor for support.

Report cards were mailed home on Friday, February 8th. Registration for the Summer Intensive Courses at Thomas College were included in this mailing. Please contact us with any questions!

Upcoming events include: The Junior College Tour on March 21st (tentatively planned for Unity College and the University of Maine). A Mini College Fair will be held during focus times on March 27th. A Post-Secondary Planning Night is scheduled for April 25th. Please mark your calendars!

Advisory: Students have been discussing class schedules for next year and will be registering for classes next week. Grade level are currently planning activities for SAT day in April. Freshmen will be attending a field trip to UMA and State House, Sophomores will be receiving information about job shadow, Juniors will be taking the SAT, and Seniors are planning an activity.
