"A caring school community dedicated to excellence"

03/02/18

Dear Parents or Guardians;

We are excited to introduce a pilot program for a "grab n go" bag breakfast. This will be offered to students in grades 3, 4, and 5 then, if successful, will extend to all grades. Regular sit down breakfast will also be available and that time is 7:30 - 7:50.

The purpose of the bag breakfast is to accommodate those students who may arrive late to school or participate in outdoor activities before school. The bag breakfast will be taken back to the classroom for break time.

Several choices will be offered to appeal to all students. Purchase price will be the same as a regular breakfast and will be charged to the students account using their ID as it is currently.

We believe that a nutritious breakfast contributes to students having a productive day. We hope this program enhances the opportunity to be offered to more students.
