

Summer 2017

RSU #38 "Kennebec Valley Book Award" Reading Program for Grades 3-4-5

Summer is a great time to read, so why not start with the KVBA booklist?

- Experience the best new children's literature selected by our district's elementary librarians.
- Readfield, Wayne and Mt. Vernon residents may find these books at their town libraries. Lithgow library in Augusta also displays these books. For those who wish to purchase any of the titles, check out Barnes & Noble in Augusta.
- Let's go for 100% participation in Grades 3-4-5 during the summer and school year! Before May 1, 2018, third graders need to read 6 books; fourth graders need to read 8 books; and fifth graders need to read 10. Family read-alouds count! Teachers will also be choosing some books to read in their classes.
- Students are required to complete a report for each book they read. If you want to do any over the summer, choose from one of the attached forms (make copies as needed) and keep all your work together. Remember, your work should be neat. Once the school year begins, students may turn reports in (maximum three book reports per week, please).
- Next spring, we will host school wide celebrations of KVBA reading, featuring a challenge game.
- Students who read 20 or more books from the list will receive a special recognition next May at our celebration.

Happy Reading
Your Library Staff
