

### What is PowerSchool Parent Portal?

PowerSchool Parent Portal gives parents and students access to real-time information including attendance, grades and detailed assignment descriptions. Once parents have created their account, they will be able to manage their account information, link any and all students to your account, and set email and notifications preferences for each student linked to your account. If account sign-in information has been forgotten, it can be retrieved by using the auto-recovery feature on the sign-in page.

### How to Log In to Parent Portal

Use this procedure to create a new parent account. When creating the account, you will need the Access ID and Password for each student you want to associate to your parent account. If you do not have this information or have questions, contact your school.

1. Open your web browser to <https://rsu38.powerschool.com/public/>

The Parent Sign-in page appears.

2. Click the **Create Account** tab then click **Create Account**

3. Fill in the form. **Note: You will choose your own user name and password. You may be prompted to select a different user name if the one you choose has already been used.**

4. Enter the student's first name, **Access ID & Access Password** and your relationship to him/her for each of your students.

5. Repeat Step 4 to add additional students to your account.
6. Click **Enter**. If successful, you will be directed to the Parent Sign-In screen. If you receive an error message, you will need to make any corrections it suggests and fill in the passwords again.
